

Shopify Dropshipping Essential

SOA: Website Design-4

Description

This 16-hours workshop is to increase understanding and awareness of Shopify as a platform for e-commerce for business owners to sell their products. The course will provide learners with an understanding of the intricacies of setting up an online store as well as the dynamics of how Shopify works and the difference in the Shopify core product and its other products and services.

Who is this Course For?

- Entrepreneurs, business owners, Digital Marketing Executives/ Marketeers
- Those keen to explore e-commerce platforms to market their products and services

Course Objectives

By the end of this course, learners will be able to:

- Understand the Shopify website features and user experience for an online website.
- Understand the legal implications regarding the right use of 3rd party media assets during website design.
- Design and implement a marketing plan.
- Establish schedules and procedures for website content maintenance.
- Determine the metrics for customer experience measurement, loading and processing time for payment when using the website.
- Evaluate the website to ensure that it can satisfy technical and user experience targets.
