JAMES COOK INSTITUTE

WSQ One Day Cybersecurity Awareness

COURSE DURATION
8 Hrs

COURSE REFERENCE NO.
TGS-2024048117

MODE OF TRAINING
Classroom

FUNDING VALIDITY
Till 30 July 2026

Enhance your cybersecurity knowledge with our essential one-day course. Participants will gain a comprehensive understanding of common cyber threats, identify vulnerable areas, and learn best practices to safeguard personal and professional information. This concise programme covers key aspects like phishing prevention, password security, and secure data management, equipping you to operate safely in the digital world.

This training is specifically designed to help your company achieve the Cyber Essentials Certification by the Cyber Security Agency (CSA) of Singapore. Organising cybersecurity training for staff is a key requirement of this certification. By completing this course, your organisation will fulfil the necessary cybersecurity awareness requirements, ensuring your team is well-prepared to defend against cyber threats and comply with certification standards.

Course Objectives

By the end of this course, learners will be able to:

- Articulate the cyber security threats and their impacts on organizations in Singapore and worldwide.
- Identify areas prone to cyber security threats and best practices for phishing prevention.
- Identify best practices for password security.
- Identify best practices for protecting personal and business devices.
- Identify best practices for protecting personal and business data and information.
- Apply Do's and Don'ts of working securely onsite and offsite for personal and business information.
- Interpret cyber security threats for a reporting.
