

Smart with Google Workspace and AI

SOA: Technology Application

Description

This course equips adult learners, mid-career switchers, administrative staff, and team leads with the skills to confidently use new technologies, such as Google Workspace and Gemini AI. These tools improve daily communication, collaboration, and productivity at work. Participants will learn how to navigate and apply core applications—including Gmail, Drive, Docs, Sheets, Slides, Calendar, Meet, Chat, and Gemini—to real-world office scenarios. By the end of the course, learners will be able to independently use these tools to carry out common workplace tasks more efficiently and confidently.

Who is this Course For?

Office workers, business owners, and mid-career professionals.

Course Objectives

By the end of this course, learners will be able to:

- Identifying the different collaboration tools in the Google Workspace.
- Utilising Google Workspace and Gemini AI for specific tasks.
- Analysing potential risks and best practices for safe collaboration.
- Evaluating the effectiveness of use of Google Workspace applications.
- Identifying and reporting common file access Issues using Gemini AI assistance

Academic Pre-requisites

Participants are expected to have a minimum of the following:

- Able to read, write, speak, and listen to Basic English.
- Able to operate essential Windows applications, a computer, keyboard, and mouse.
- Lower Secondary Education

Course Duration

16 Hours

Course Reference No.

TGS-2026061291

Mode of Training

Classroom

Funding Validity

Till 04 Jan 2028

Full Fee \$900

(Subject to 9% GST)

Pricing	Funding	Nett Fee (After GST)
